

# Practices

2. Reason abstractly and quantitatively.

4. Model with mathematics.

6. Attend to precision.

8. Look for and express regularity in repeated reasoning.

This is the back.

Fold on the dark lines.

Cut on the dotted lines.

Glue this part to your journal or into your binder. (optional)

# Mathematical

1. Make sense of problems and persevere in solving them.

3. Construct viable arguments and critique the reasoning of others.

5. Use appropriate tools strategically.

7. Look for and make use of structure.
